this fundamental truth of modern business and so destroy the wealth of their company's ultimate owners. By failing to consider and manage the business risk associated with their strategies, they deliver returns below the cost of capital and neglect the firm's raison d'etre. The board needs a way of holding these marketers to account. Marketing Due Diligence is a new process which has emerged from years of research at Cranfield, one of Europe's leading business schools. It blends proven ideas from strategic and financial management with new concepts about organisational effectiveness to create a

empirical studies on total quality management that suggest new ways to think about quality. The objective of the research found in this book is to develop theory and to assist practice. Thus, this volume is of interest to both academic researchers and practising managers. The chapters fall into four categories: 'Performance', 'Understanding TQM', 'Organizations', and 'Using TQM'. All of the chapters show that there are many different applications and research issues associated with quality. The chapters on 'Understanding TQM' suggest that it is possible to develop and test theories of

quality. The chapters on 'Performance' demonstrate that studies of the operational and financial effect of quality can yield positive results. Many thinkers on quality consider that organizational impacts of quality are the most important drivers of the quality process. The chapters on 'Organizations' present evidence on how quality programs affect human resource management, and organizational structure. Finally, the chapters on 'Using TQM' present several studies of applications of quality management.

environment. Marketing provides customer and competitor information to the organisation, as well as creating awareness of the company's offering. As globalization creates increasing challenges to established marketing practices, marketing efforts need to reposition and adapt continuously to maintain an organisation's ability to reach potential customers. This Very Short Introduction provides a general overview of the function and importance of marketing to modern organisations. Kenneth Le Meunier-FitzHugh discusses how marketing remains central to creating competitive advantage,

and why it needs to be forward looking and constantly reinventing itself in line with new developments in the marketplace, such as the growth of social media, and the importance of ethics and responsible marketing. He shows how this has led to the role of marketing expanding beyond advertising and promotion, encompassing a broader sense of customer relationship management. He also considers how marketers need to remain able to manage the marketing mix in response to their understanding of customer's purchasing habits.
